

4Life Transfer Factor® RioVida®

4Life
TOGETHER, BUILDING PEOPLE™

TRI-FACTOR™ FORMULA

Taste Life!

Home to colorful Macaws and lush palm fronds, the Brazilian rainforest teems with life. Yet the nutritional secret of the Amazon lies deep beneath the forest's mossy floor in its fertile, untapped soil. The wholesome fruits grown in this soil, particularly the deep purple richness of the açai berry, inspired 4Life entrepreneur David Lisonbee to consider an amazing wellness partnership—4Life Transfer Factor Tri-Factor Formula's immune system-enhancing benefits with the nutritional boost of nature's strongest energy fruits. This union took form in the shape of 4Life Transfer Factor RioVida Tri-Factor Formula.

Portuguese for *River of Life*, RioVida is a new liquid revolution that blends the potency of Transfer Factor E-XF™ and NanoFactor™ with energizing fruits, including açai, blueberries, pomegranates, elderberries, and purple grapes.

Key Points

- **Transfer Factor E-XF:** Transfer factors are molecules found within the bodies of all mammals and birds. Transfer factors provide immune **intelligence** and promote the immune system's ability to recognize, respond to, and remember invaders seeking to threaten health. Transfer Factor E-XF is 4Life's advanced transfer factor blend. Through a patented process exclusive to 4Life, transfer factors from both cow colostrum and chicken egg yolks are combined to produce synergistic immune system-enhancing support.
 - **NanoFactor extract:** Nanofractions are low-weight molecules found in the immune systems of certain mammals and birds. They possess natural **intuition** and function as part of the complex "command and control" network of the immune system. NanoFactor is 4Life's patent-pending extract of nanofractions from cow colostrum. NanoFactor helps immune cells know when to act, how to act, and when to rest.
- 4Life Transfer Factor Tri-Factor Formula** brings together the **intelligence** of 4Life Transfer Factor and the **intuition** of NanoFactor, to regulate, boost, and balance the immune system... **according to what your body needs.**
- **Potent Antioxidant Protection:** RioVida was developed to both excite the senses and nourish the body with an intense concentration of active ingredients. Offering an exotic blend of "superfoods," the fruits found in RioVida support healthy cardiovascular, digestive, urinary, and immune system functions with powerful phytonutrient antioxidants called anthocyanins, omega fatty acids, flavonoids, ellagic acid, and tannins. Vitamin C and lactoferrin, a beneficial milk protein, were also added for their fortifying antioxidant properties and increased immune system support.
 - **Unique and Exclusive:** RioVida is the first liquid dietary supplement with the immune system-supporting benefits of 4Life Transfer Factor Tri-Factor Formula. Backed by patented and patent-pending extraction and manufacturing process, this antioxidant-rich beverage offers a one-of-a-kind immune system punch and a smooth juicy flavor.

Did you know?

Antioxidants are nature's way of rebuilding and restoring molecular health. By bonding with free radicals, the natural byproduct of oxygen, sunlight, and other environmental conditions, antioxidants promote balance and molecular regeneration in the body.

Technical Points

- The extraction process for transfer factors from egg sources is protected by U.S. patents 6,468,534; and the combining process for transfer factors from cow colostrums and chicken egg yolks is protected by U.S. patent 6,866,868.
- The essential fatty acid complex of the açai berry resembles that of olive oil, thought to contribute to the maintenance of ideal heart health in Mediterranean populations.
- Austrian endocrinologist Dr. Sepp Porta tested the influence of elderberries in promoting healthy stress levels. Dr. Porta found that a 10-day concentrated dose of elderberries was effective in helping the body deal with stress.
- Free radicals are caused by oxidation and result naturally from sunlight and exposure to oxygen in the air. Once formed, they can do damage to both DNA and cell integrity. For this reason, free radicals are known to interfere with good health and promote aging.

DIRECTIONS: Drink one or more ounces daily.
Serving Size: 1 fl. oz (30 ml)
Servings Per Container: 16

Supplement Facts

Amount Per Serving		%DV*
Vitamin C	125 mg	200%
4Life Transfer Factor Tri-Factor™ Formula	600 mg	
Transfer Factor E-XF™		
<small>A patented concentrate of transfer factors and other natural components from cow colostrum and egg yolk.</small>		
NanoFactor™		
<small>A proprietary blend of nano-filtered cow colostrum.</small>		
Lactoferrin	60 mg	**
RioVida Juice Blend	28 mL	**
<small>Açai, Pomegranate, Blueberry, Elderberry, Grape, Apple</small>		

*Reference Daily Intake (RDI)

**Daily Value (DV) not established

Natural Preservatives: lysozyme, lactoperoxidase.

Other Ingredients: natural fruit flavors.

Use within 30 days of opening.

Shake well before each serving.

Refrigerate after opening.
